

Refer to Fig. 1

1. Identify (A) upper and (B) lower die holders on tool.
2. Ensure tool handles can be closed completely.
If necessary adjust with (C) stroke adjustment screw.

Refer to Fig. 2 & 3

3. To apply front of snap to material, identify FRONT DIE SET and attach upper and lower dies to die holders A and B on tool.
4. Insert SWAROVSKI ELEMENTS 'Snap Front' or 'Decorative Button' components in appropriate Front Dies. (To match correct dies and components, see details in Fig. 2)
5. Place material **face down** over lower die and squeeze handles, attaching components to material. Release tool and gently pull material to remove from tool.
6. To apply back of snap to material, remove upper and lower dies and repeat steps 3-4 with BACK DIE SET and 'Snap Back' components.
7. For bracelet application, place material **face up** over lower die and squeeze handles, attaching components to material. Release tool and gently pull material to remove from tool. Front and back snaps are now applied.

3 SWAROVSKI ELEMENTS Snap Fastener / Decorative Button Components for use with Snap Die Set		
1780/100	1781/100	1780/100
1780/114	1781/114	1780/114
1786/100	1786/101	1786/100
